## Research and Innovation Indicators and their relation to internationalization

### ROUNDTABLE-WORKSHOP

**19 June 2015, Budapest**

How internationalization and networking contribute/are linked to research and innovation.

	Choose up to 10 indicators, which can easily be measured at your university environment ↓
<b>I. Researcher Profiles</b>	
Category A	
<b>06-001</b> In a given year, what proportion of researchers in the unit holds a foreign higher education degree?	
Category B	
<b>06-003</b> In a given year, what proportion of researchers in the unit has a foreign nationality?	
<b>II. Visiting researchers</b>	
Category A	
<b>06-008</b> Out of all the researchers in the unit in a given year, what proportion are considered to be international visiting researchers?	
<b>06-009</b> In a given year, how many total days are spent at the unit by all international visiting researchers?	
<b>06-067</b> Does the unit provides information for international academics on its website?	
<b>III. Researcher activity</b>	
Category A	
<b>06-010</b> In a given year, what proportion of researchers in the unit goes abroad as visiting researchers for some period of time?	
<b>06-018</b> In a given year, what is the ratio of conference presentations delivered abroad (or in the context of international conferences) to the number of researchers in the unit?	
<b>06-050</b> Number of internationally funded (i.e. within EU programmes) research projects	
<b>06-053</b> Number of international conference contributions per professor/researcher	
<b>06-055</b> Number of international conferences held at the unit	
<b>06-056</b> Number of formalized international cooperation (based on contracts)	
Category B	
<b>06-054</b> Number of invited talks/key lectures	
<b>06-016</b> In a given year, what proportion of researchers in the unit is involved in at least one research project with an international partner?	
<b>06-019</b> In a given year, what proportion of researchers in the unit considers that at least half of their research activity is focused on international issues, subjects, or projects?	
<b>06-051</b> Number of project leaders in bi/multilateral projects	
<b>IV. Institutional Profile</b>	
Category A	
<b>06-021</b> In a given year, what proportion of research projects with which the unit is formally associated is internationally funded?	
<b>06-023</b> In a given year, what proportion of research projects with which the unit is formally associated involves international partners?	

<b>06-057</b> In a given year, what proportion of active agreements does the unit have with foreign partners?	
<b>06-058</b> Does the unit participate (member) in international networks and organizations?	
<b>06-060</b> How many international, knowledge/technology transfer projects are conducted in the unit?	
<b>06-065</b> In a given year, out of all external funding received by the unit for research, what proportion comes from international sources?	

<b>V. Publications and citations</b>	
Category A	
<b>06-028</b> Out of all published pieces (books, journal issues, articles, etc); produced by the researchers in the unit in a given year, what proportion is produced through international collaborative activity?	
<b>06-032</b> In a given year, what proportion of articles authored (or co-authored) by the researchers in the unit is published in internationally refereed journals?	
<b>06-039</b> In a given year, what proportion of Highly Cited Authors (HiCi), according to Thomson 11, is in the unit?	
<b>06-061</b> Number of publications in international scholarly/peer-reviewed journals per researcher	
<b>06-062</b> Citation performance of international research activities (e.g. SCI) / Citations of paper (CPP)	
<b>06-066</b> In a given year, how many published pieces (books, journal issues, articles, etc.) are published through international co-authorships involving academic / research staff in the unit?	

<b>VI. Patents</b>	
Category A	
<b>06-041</b> In a given year, what proportion of patents is filed outside the country by the researchers in the unit?	
<b>06-044</b> Out of all patents ever filed by the researchers in the unit, what proportion has been filed outside the country?	
<b>06-064</b> Number of international patents per professor/researcher
